

REMARKS

Entry of this Amendment is respectfully requested.

The Examiner maintains there are two groups of inventions which are not so linked as to form a single inventive concept under PCT Rule 13.1. These groups have been identified as follows:

Group I: Claim 1, drawn to a method of joining a coupling element.

Group II: Claims 2-6, drawn to a tool for joining a coupling element.

Applicant elects the claims of Group I for purposes of examination and has cancelled claims 2-6 of Group II.

Accordingly, Applicant reserves the right to file a divisional application for the non-elected, cancelled claims.

Respectfully submitted,

Dated: October 29, 2010
